## Auditors: tighten financial control in Pontoon Beach

By Scott Cousins  
Staff writer

Pontoon Beach needs to have tighter control of its financial situation, according to a report by auditors.

A formal bookkeeping system, better control of records and tighter control of who handles money received by the village were among 13 recommendations made in a letter to the village from auditor Daniel Donohoo.

Finance Committee Chairman Gus Falter said several of those recommendations have already been put into place, and his committee will be considering the rest in the near future.

Those recommendations are underscored by the recent firing of Treasurer Judy Donaldson by Mayor Glen Wilson.

Donaldson was fired Thursday. Wilson would not give specific reasons, but trustees said part of the problem was late payments of withholding taxes to the Internal Revenue Agency.

Falter emphasized that there

have been no allegations of misconduct against Donaldson. Finance committee members heard a report from the auditor Friday.

"We have a series of recommendations made by the auditor, and we'll be formulating a response to each one," Falter said.

In the letter, Donohoo said that no formal bookkeeping system has ever been developed for the village.

"Most records are maintained in a piecemeal fashion with no formal ledger control accounts," he said.

During the audit, Donohoo said his company had "frequent" problems because records could not be located. He said there was no clear system for filing records, and a failure to note who took records or when and if they were returned.

Other recommendations were:

• Changes should be made so that no one individual has control over both physical assets (such as money), and the related accounting record.

• Blank checks should be stored in secure locations and periodically checked.

• More care be taken with specific line items on the budget.

## Madison report card School district's grades no surprise

By Scott Cousins  
Staff writer

There were no surprises in this year's report card for the Madison School District.

The reports showed the district's students performed below the state averages in almost every category. Two of the reasons for this were a percentage of low-income students and a student mobility rate at more than twice the state average.

The mobility rate shows the number of students moving in and out of the district. Because such moves interfere with the children's education, a higher rate usually means they will not perform as well.

The report card for the Madison School District shows 1,227 students enrolled in the district.

trict.

Of those, 25.2 percent are white, 73.4 percent black, and 1.3 percent Hispanic.

Approximately 83.7 percent are considered low income, compared to 34 percent for the state.

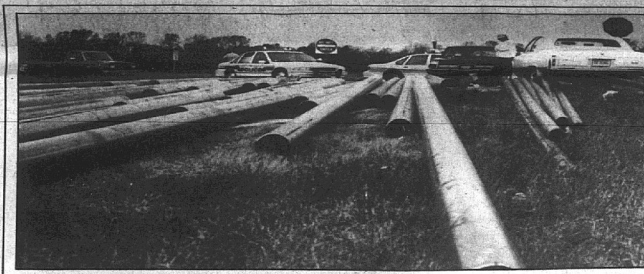

Student mobility is 46.2 percent compared to 19.3 percent for the state, while chronic truancy is 1.5 percent, compared to 2.4 percent for the state.

The report cards were discussed at Thursday's school board meeting.

## Ambulance district support sought

By Scott Cousins  
Staff writer

The group looking into the creation of an ambulance district in the Long Lake and Mitchell fire protection districts is reaching out to the community for more input.

Marvin Ribbing, chairman of the committee, said letters would be sent out to churches and civic organizations asking them to send representatives to the group's meetings.

The next meeting will be at 7 p.m. Wednesday, Nov. 1, at Mitchell Fire Station Number Two.

He also said the group hopes to get a referendum to create an ambulance district on the spring ballot.

Officials started talking about forming a district after LifeForce Paramedic Ambulance Service sent a letter saying they were pulling out of Madison County because it was losing money.

The company provides service to Pontoon Beach, Venice, Brooklyn and nearby unincorporated areas.

The company later agreed to continue providing service for at least a few more years. Before the announcement, the company dispatched ambulances from Pontoon Beach and Venice. At this time they are dispatching ambulances from Pontoon Beach.

Creating a district would require a referendum because it would be a taxing district. The (See AMBULANCE, Page 2A)

## Newsboys edition lists kids' choices

By Jean Abernathy  
Staff writer

The special edition *Suburban Journal* sold on Old Newsboys Day, Nov. 2, will give readers the opportunity to peek inside the minds of children throughout the St. Louis area.

Thousands of area children overwhelmed *Journal* offices with responses to the first Children's Choice awards. Kids from Wildwood to Belleville, from Spanish Lake to Mehlville, filled out questionnaires and named their favorites — from restaurant to radio station, from brand of shoes to hockey player.

The results are sometimes predictable but still enlightening.

Do kids prefer Nike over Converse? Did Taco Bell beat out McDonald's? Would they rather go to the Kiel Center or Six Flags? Is Live the hot group or does Pearl Jam still rule?

The answers to these questions, and many more, will be in the Old Newsboys Day edition of the *Suburban Journal*.

## Granite City native wins press award

By Bob Slate  
Staff writer

Ever since he was in high school, Chris King has been a free spirit.

King, a Granite City native, was recently awarded first place in the feature story category for weekly newspapers in the Missouri Press Association's annual statewide newspaper contest.

King won the prize for a feature story about carnival workers he wrote for the *Riverfront Times*.

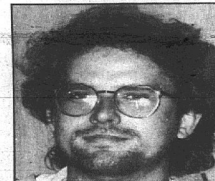

The prestigious press association awards do not come easily. They are usually won by staff newspaper writers and photographers. It is extremely rare for a freelance writer like King to receive such an award.

"The RFT entered the story in the contest. I was a little

surprised," King said. "But maybe if the people in Granite City know about it, they'll start reading the RFT."

King, 29, is a teacher of African literature on the university level. But he is not the typical college professor.

He is also the front man for "eleanor roosevelt", a popular music group formerly known as "enormous richard." The (See KING, Page 3A)

## County budget for 1996 to be reviewed this week

Madison County Board members and the public will review the proposed fiscal 1996 county budget this week.

The spending plan recommended by the board's Finance Committee will be the subject of a special County Board meeting at 7 p.m. Wednesday and a public hearing at 7 p.m. Thursday, both in the county Administration Building.

Final action is expected at the board's regular meeting Nov. 15. The fiscal year begins Dec. 1.

The committee could make revisions this week, but the budget now calls for \$25.6 million in general fund expenditures, up about \$1.6 million from this year's budget. General fund revenues are expected to approximate proposed spending and produce a balanced budget.

Proposed spending funded by special taxes, grants and other sources raises the overall budget total to \$74.8 million, slightly less than this year's \$76 million.

County Director of Administration James Monday said the proposed budget is expected to produce a tax rate about the same as this year's \$7.3 cents per \$100 assessed valuation.

Monday said most county offices and departments got just about what they asked for in the proposal. "Most of them asked for the same amount (as this year) or a minor increase," he said.

## Madison may get \$2.29 million

By Scott Cousins  
Staff writer

The Madison County Transit District will receive \$2.29 million to replace buses if Congress can get together on the budget.

MetroLink will also receive about \$12.5 million, including \$2 million for the St. Clair County corridor.

U.S. Rep. Dick Durbin, D-Springfield, announced Wednesday that the money is part of a \$16.85 million package to the Illinois Department of Transportation to purchase new buses, improve facilities and comply with the American

with Disabilities Act.

"Madison County came out better than anybody else in Illinois," said Durbin spokesman Melissa Metz. "We're really excited about this."

Transit District Manager Jerry Kane said the money would be used to replace 10 Orion 2 buses originally purchased in 1990.

Because of the demand for the vehicles, Kane said they might not be delivered until sometime in 1997.

"As a result, these Orion 2s are going to have upwards of 500,000 miles on them," he said.

The amount was approved

by a House-Senate conference committee working out differences between the House and Senate versions of the 1996 fiscal year transportation spending bill.

Durbin is a member of the House Appropriations Subcommittee on Transportation and was a member of the conference committee.

"The transit district was pleasantly surprised by this action," Kane said. "It's extremely difficult to get federal funds."

He added that it "speaks very well" for Durbin and Rep. Jerry Costello, D-Bellville.

## Truck loses load, two slightly injured

By Bob Slate  
Staff writer

Two area residents were lucky to escape with minor injuries Monday afternoon when a load of steel pipe rolled off a flatbed truck and struck their cars at a dangerous intersection off of Illinois 3.

"This is a very dangerous intersection," said Beverly Burns, a nearby resident. "This is the third time God has saved me from these trucks in the last split second."

Burns was sitting at a stop sign on St. Thomas Road in her black Oldsmobile Delta 88, waiting to turn left onto Illinois 3 at about 3 p.m. when the load of tons of steel pipe flew off a flatbed tractor-trailer turning right onto St. Thomas from the highway.

The pipe struck Burns' car and a white Cadillac driven by David Woodard of Madison.

Woodard's car was behind Burns on St. Thomas. He was also waiting to turn onto the highway.

"When I looked up, that pipe was as high as my windows," Woodard said.

Straps holding the steel pipe on the flatbed apparently snapped, causing the load to spill.

The pipes were heavy enough to push Woodard's Cadillac sideways. A curb prevented the car from being pushed into a ditch, but blew out the passenger-side tires on the Cadillac.

"I'm retired. I thought this car would last me," Woodard said.

Burns and Woodard suffered minor injuries. Burns said her car was damaged.

"I've got a heck of a headache," Woodard said.

## •Ambulance

(Continued from Page 1A)

earliest it could be on the regular ballot would be in the spring.

The district could either contract with a private company or provide its own ambulance service.

The maximum tax rate for an ambulance district would be 30 cents per \$100 assessed value. That would mean the owner of a \$30,000 home would pay \$30 per year.

That money would be used to partially subsidize ambulance service within the district.

At an Oct. 18 meeting Ribbing said LifeForce President Jere Wilmering talked about the difficulties in maintaining service.

"We discussed a number of things (at the meeting)," Ribbing said. "Mostly concerning how to get the word out."

Ribbing said he has spent a great deal of time thinking about the ambulance district, and has decided there is no other way to properly fund ambulance service.

"We need a stable base to maintain an ambulance company," he said. "Yes, we have to have an ambulance district."

## •Finances

(Continued from Page 1A)

Cash receipts should be deposited on a timely basis.

The village should have a policy of canceling invoices and supporting documents to avoid double payment of bills.

The village should have a formal written policy on investment of cash balances larger than \$100,000.

The treasurer's bond should be higher than the present \$50,000.

The village should have better control and inventory of

fixed assets.

Falter said several of those suggestions have already been implemented.

He said the finance committee has developed a stamping system for invoices, and will only pay bills from invoice.

He also said cash and other money will be deposited on a more timely basis.

The village is also going to advertise for a full-time treasurer/comptroller.

"We need a trained professional," he said.

**•Madison**

(Continued from Page 1A)  
Gary Allison said. "We're not the best district in the state and we're not the worst in the state."

Allison said the state sent the report cards late, but would not give the districts additional time to prepare plans.

However, he noted that the district was trying to find time for more teacher training, "brain-friendly" student activities, and tutoring programs.

He also noted that teachers cannot do everything, and criticized parents who did not take some responsibility for their children's education.

Earlier that day, Allison said he visited a fifth-grade class, and noticed a child who had fallen asleep. The child told him he had been up until 11:30 the night before watching movies.

"That's just as bad as the child skipping school," Allison said.

"Someone was not responsible at home," he added. "Nobody bothered to tell the kid to go to bed."

Much of the report deals with test scores of students. The scores were based on Illinois Goal Assessment Program tests administered during the 1994-1995 school year.

Allison said that generally, the number of students in the district that met state goals was near the state average. The major difference is that the number of students in the district who exceeded those goals was much lower than average.

Here, the results are shown as percentages of Madison students who meet or exceed the state goals compared to the state average.

At Madison High School, sophomores were tested in reading, math and writing, while juniors were tested in science and social science.

In reading — 53 percent compared to 69 percent; math — 63 percent compared to 78 percent; writing — 12 percent compared to 57 percent; science — 40 percent compared to 71 percent; social sciences — 77 percent compared to 87 percent.

At Madison Middle School, sixth and eighth grade students were tested in reading, math and writing. Seventh grade students were tested in science and social studies.

For the sixth grade, results were: reading — 47 percent compared to 74 percent; math — 53 percent compared to 85 percent; writing — 82 percent compared to 88 percent.

The seventh grade statistics were: science — 37 percent compared to 80 percent; social science — 54 percent compared to 88 percent.

For eighth graders: reading — 36 percent compared to 72 percent; math — 39 percent compared to 77 percent; writing — 77 percent compared to 88 percent.

At Blair Elementary School, only third grade students were tested. Results were: reading — 55 percent compared to 74 percent; math — 78 percent compared to 88 percent; writing — 82 percent compared to 86 percent.

## Here Are Some Timely Fall Gardening Tips from the experts at

# FRANK'S®

October, in many parts of the country, signals the end of the active gardening season. Up in the northern reaches of Minnesota, North Dakota and other snow belt states, lawn mowers have virtually gone into hibernation and people are getting their snowblowers and snowmobiles ready for action. Missouri gardeners, however, haven't quite reached that stage.

You should continue to mow your lawn as long as it's actively growing. Many people may be ready to give up on mowing for this season, but it's not a good idea. Long grass over the winter invites snow mold and other fungus problems. So don't stash the mower away for the winter until the lawn goes completely dormant. When mowing is finally finished, it's the perfect time to give the mower a good once-over, especially if it was performing a little sluggish during the season. You'll have plenty of time to get it in shape.

Parsnips, rutabagas and other root crops can be left in the ground after fall frosts and harvested as needed. If you mulch them heavily to keep the soil from freezing, you can continue to harvest them through the winter.

Continue to water new plantings, especially evergreens, right up to the time frost enters the ground.

Get down your gardening successes and any special problems you may have encountered. Keep these thoughts in a special gardening notebook for future reference. Or you could follow a tip sent to us last March from one of our readers... use a portable tape recorder for the same purpose.

The first few frosts of the fall don't have to signal the end of vegetable harvests and flowering annual blooms. You can extend their season. Pay close attention to weather reports and when frost is predicted, cover these plants with paper bags, boxes or other coverings. Plants that you know will not be protected can be used to provide floral

bouquets so their beauty can at least be enjoyed a few additional days.

Many tender veggies can be picked. They'll keep if left in a cool place. Even unripened ones such as green tomatoes, can be harvested, as they'll continue to ripen if kept in a dark place or wrapped in newspaper. Some vegetable crops are frost tolerant, especially root crops. Brussels sprouts actually improve in flavor if touched by frost.

During your clean-up activities, you'll probably end up with a fair-sized amount of debris. What's one to do with it all? Starting a compost pile makes a lot of sense, and it's an excellent time to do it. If the stuff is disease-free, it'll make a good, rich humus that provides numerous benefits for your lawn and garden.

You can also add organic matter such as coffee grounds and teabags. As you do, sprinkle manure, topsoil or garden fertilizer in layers over the materials to assure a steady supply of micro-organisms to keep the decomposition going. The pile should be moist, but not waterlogged. A concave-formed pile traps and absorbs rainwater in the pile. Turn the pile every few weeks with a shovel or spade to keep everything decomposing at the same rate.

Think safety! When storing lawn and garden chemicals (or any other substances, for that matter), keep them in their original containers, well out of the reach of children.

## Warriors slam Comanches 11-0

By Scott Wuerz  
Correspondent

Trying for its first state soccer title since 1990, Granite City High School won by an impressive 11-0 margin over Cahokia in regional competition.

The Warriors dominated not only the scoreboard, but controlled the ball throughout the course of the game, limiting Cahokia's young team to precious few scoring chances.

"We only had three seniors dressed today, and it showed," Cahokia coach Craig Garin said. "But they're a really good team and they deserved to win."

Cahokia was able to keep the Warriors in check for the first ten minutes of the game before Granite City's offense was able to get comfortable. But at 33:01 of the first half Granite City midfielder Justin McMillan started a scoring avalanche by blasting a shot off the goalpost, which ricocheted into the goal off a crowd of players in front of the net.

McMillan was able to keep the pressure on, with a second goal and two more assists before the half.

First he assisted back Jared

Embeck on a two-on-one break at 24:59. Then, after an unassisted goal of his own, McMillan lined a hard shot off of

Cahokia goalie Beto Berrera which back Brian Meyer was able to head into the net for a 5-0 halftime lead.

At the beginning of the second half, the Comanches tried to get the ball on Granite City's half of the field by booting it in deep and trying to recover it instead of attempting to dribble and pass down the field against Granite City's swarming players.

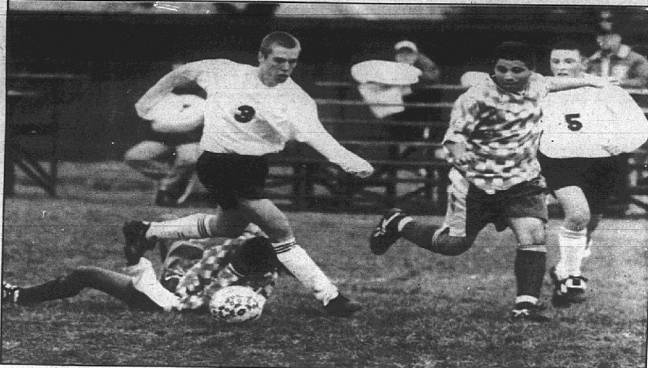

But the Warriors allowed only three shots on goal in the second half because of the ability of their defensemen to get to the ball quickly and to make good outlet passes.

Jeff Hayes led the Warriors' offense in the second half with a pair of goals.

Meyer scored a second goal as did Embeck, and Buddy Prazma and Curtis Howard were each able to score one goal for Granite City.

Cahokia ended its season at 4-19, while Granite City

## Can common sense prevail?

I've been on a common sense kick lately, and I do not know if one column can hold the examples.

A few weeks ago when this corner referred to there being two sides related to the resignation of East St. Louis Senior High football Coach Bob Shannon, I knew it would not take long for the sides to expand.

Unless the article is shoved to the side, it appears Sports Illustrated will do a piece on Shannon's resignation, yet I wonder if the SI writer will pass along some of the things I've learned since Shannon quit Sept. 2 prior to the second game of the season.

Common sense should have told Coach Shannon he could not tell the athlete director's job without going through the proper chain of command as well as told him he had best have his house in order before pointing fingers.

If SI reports the facts of one of the nation's most highly respected high school coaches, I expect the national sports magazine to make Shannon some kind of God in his community.

Yet, as mentioned here, some folks in East St. Louis are well aware of the fact that prep football was good in that city before and after Shannon, are not about to bow to Bob.

OF CONCERN RECENTLY are checks from the Wal Mart Company to East St. Louis Senior High, but endorsed by Shannon, who spoke nationally after being the subject of a book.

My source says it could be two checks for a total of \$15,000 which were deposited in an account by Shannon instead of being turned over to the East St. Louis school board.

When Shannon resigned, he pointed at current Flyers Athletic Director Dr. Art May for misuse of funds — specifically meal money for East Side's season opening game at Chicago Simeon.

Even with a state appointed auditor at the school, May had no trouble explaining how he got money from the board for a amount that was used for four meals. Shannon claimed May put in for six meals, but the A.D. referred to an allotment for \$3 for breakfast, \$4 for lunch and \$5 for dinner not being enough in Chicago and thus had the same amount of money spread over four meals.

What Shannon must not have understood was that he was being scrutinized as well — even before the row over the meal money or wrong equipment order for shoes surfaced.

Others schools in the area were aware of Shannon holding what amounted to illegal practices in the balcony area of the Flyers gymnasium where wrestling teams could compete on the gym floor and look up and see players in pads on the next level — out of football season.

Asked to stay away from the football program once Edmund Jones was named the Flyers coach, Shannon also then lost access to his office. After the coach of six state titles in 18 seasons at East Side failed to clean out his office, the lock to the door was changed although most of the office's contents remain.

BEHIND THE CLOSED door of that office are matters the East St. Louis school board may add to its inquiry of Shannon after the Wal Mart matter.

The contents include several jackets with St. Louis Football Cardinals logos as well as other clothing and of all things — football shoes.

If the board is to show unnecessary concern in that area, it is expected that they will be more concerned about Shannon's 26 sick days recorded during the 1994-95 school year. Such may have been related to being a goodwill ambassador for East St. Louis when the coach was speaking engagements. However, common sense says that's a lot of time off during a school year and is not easily justified even if the coach was being paid over \$1,000 per engagement.

## Van Buskirk hits hard for Wildcats

Culver-Stockton College senior linebacker Bill Van Buskirk of Granite City turned in a stellar defensive performance in helping the Wildcats to their 21-20 first win of the season and their first-ever win over Baker University on Oct. 14.

Van Buskirk, the son of John and Debra Van Buskirk of Granite City, registered five tackles, five of which were initial hits. He also recorded two tackles for losses of six yards and scored the Wildcats' second touchdown when he sacked Baker quarterback Shawn Tarango.

That sack forced a fumble in the end zone. Van Buskirk fell on the ball quickly, and he had his first career score.

In the fourth quarter, Van Buskirk helped stop a 2-point conversion attempt by Baker, which would have given them the win.

Van Buskirk leads the Wildcat defense with 66 tackles, including four tackles for losses and two quarterback sacks. In addition, he has recovered a fumble and has two quarterback pressures.

The 5-8, 185-pound Van Buskirk was also a big factor in CSC's first win of 1994, a 14-0 win over Graceland. In that game, Van Buskirk picked off two passes.

"We've been very pleased with the progress Bill has made in his four years here," said Wildcat coach Al Tamberelli, in his fifth season at CSC.

## Outstanding area athletes are honored

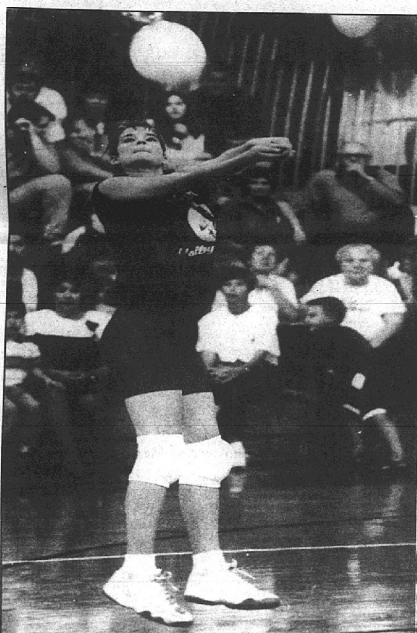

During the halftime of the Southern Illinois at Edwardsville men's soccer game versus Arkansas-Little Rock on Oct. 5, the outstanding athlete awards were presented to the respective honorees.

Among those was Granite City's Stephanie Kult, who was recognized for her fine play in the Lady Cougars' goal this season.

Kult, a sophomore at SIUE, has started all 11 of the Cougars' games in goal, compiling a 1.09 goals-against average, and also registering three shut-outs.

Also honored at the ceremony was Granite City's Jeff Stephens, who was named co-Most Valuable Player for the SIUE men's baseball team. Sharing in that honor with Stephens was Doug Fox of St. Louis.

## Regional victory a realistic goal

By Rob Raphael  
Staff writer

The Granite City volleyball Lady Warriors were to face Edwardsville in the first round of the regionals Tuesday night. Cahokia — a match in which Warrior coach Cindy Gagich started an all-senior lineup in game one — the Warriors should have some momentum carrying them.

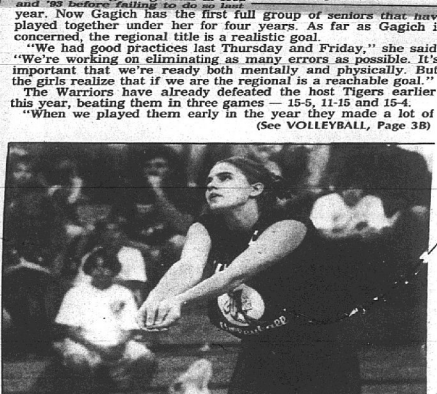

The Warriors, under Gagich, won two straight regionals in 1992 and '93 before failing to win a year.

Now Gagich has the first full group of seniors that have played together under her for four years. As far as Gagich is concerned, the regional title is a realistic goal.

"We had good practices last Thursday and Friday," she said. "We're working on eliminating as many errors as possible. It's important that we're ready both mentally and physically. But the girls realize that if we are the regional is a reachable goal."

The Warriors have already defeated the host Tigers earlier this year, beating them in three games — 15-6, 11-15 and 15-4. "When we played them early in the year they made a lot of

## Coach pleased with meet results

By Rob Raphael  
Staff writer

All a coach can ask of a team is for it to do their best when it counts the most.

That's why Granite City cross country coach Dave McClain is a happy soul after last weekend's regional meet at Belleville Area College.

McClain said every one of his runners ran their best times of the year at the regional, which was hosted by Belleville West. And one of those, Nicole Done, will be traveling to the Decatur Eisenhower Sectional for the second consecutive year. Done has advanced to the sectional in all three seasons of varsity running for the Warriors.

Done finished 15th overall on the girls' side, with a time on the 2.0-mile course of 13:02. She finished four spots down from her 11th-place finish in last year's regional, although her time was 20 seconds quicker.

"Nicole ran a good race, and it was her best time of the year," said McClain. "Even though she didn't finish as high, she still ran better."

She ran the same course (at Decatur) last year, so she's familiar with it, and she ran it very well last year, too. I'm looking forward to going back there and seeing what she can do."

Collinsville's Katie Meyer — the dominant female runner in the Class AA area — won the regional with a time of 11:24 — 45 seconds

ahead of her nearest competition, Lincoln's Na'jah Fennoy.

Other Lady Warrior finishers included Heather McEll (14:43), Jessica Stegelmeyer (15:09) and Ginger Gerstner (18:15).

Collinsville placed second in the team race, with Lincoln on top with just 20 points. The Kahoks had 48 points; and Belleville East (82), West (91) and Edwardsville (121) also advanced as a team to the sectional.

On the boys' side, West won the regional title, paced by Zac Freudenberg, who placed first overall. West finished with 40 points, followed by Collinsville (55), East Side (62), Lincoln (105) and Belleville East (109).

Granite City's finishers on the 3.0-mile boys' course included Jason Peeler (17:48), Eddie Connolly (18:10), Tom Hatley (18:22), Robert Lampitt (18:39), Larry Wiegand (18:43) and Kris Mangiaracino (19:22).

"Everyone finished with their best times of the year," said McClain. "All of them ran as well as they could, and that's exactly what the regionals are about. It was good to see."

The Triad Lady Knights have the regional's No. 1 seed, and if form holds true the Warriors will be playing the Knights for the regional crown. Triad defeated Edwardsville about two weeks ago, by lopsided scores of 15-1, 15-0.

"Triad's a very good team, and they can be intimidating," Gagich said. "They are a scrappy group, with some very good hitters at the net. But if you serve tough, you can get them out of their offense."

A month or so ago, that would have been a major problem for the Warriors. But in the last five matches or so, Granite City has turned their serving problems around. In the Cahokia match, five different Warrior players were perfect from the service line.

Jill Wozniak was 13 for 13; Jenna Wright and Jennifer Willis were each 11 for 11; and Amy Tapp and Bari Baum were each 3 for 3.

"We've made some real strides in that area in the last few weeks," Gagich said. "We've been taking the girls through some different drills, and seeing if they can make a good serve in a pressure situation. It's made an impact and a real difference."

Another positive that will come in handy against Triad or any other good team is depth, and the Warriors have improved their bench play this season.

Gagich said that for the first time since she has been at Granite City she can say she's comfortable with her depth. "It comes with the development of players, beginning at the junior high level; and training kids for four years the fundamentals both offensively and defensively. Plus, all of the off-season work plays a part in that, too. It all builds

together to strengthen a program."

Laurie Bohnenstiehl, who Gagich believes is one of the more versatile players on the team, will see some playing time in the regional. Baum has impressed Gagich with her serve-receive abilities; and Danielle Lehne has returned from an injury to begin to get her legs back.

"We're not about to look past Edwardsville," Gagich said. "Anybody can beat you on a given night. But it looks like Triad is the team to beat in our regional, and we have what it takes to beat them."

improved to 14-5-4.

Warrior coach Gene Baker said he hoped his team is not overconfident because of the victory. The Warriors faced a tough Mascoutah team Tuesday which beat Belleville East 1-0 in its regional game.

"Mascoutah has a balanced scoring attack and some players who can do a lot of good things," Baker said. "They've got a good goalkeeper and an offense that can score from anywhere on the field."

country and track teams last season. She qualified for the NCAA Division II track and field Championships in the 10,000-meter run. Beach-Pond has taken her place to the next level as she has broken the school record in the 5K in cross country twice already this fall.

Initiation of new members was held with the following being initiated: Juanita Williams, Yvonne Passig and Dora Walker. Those in the initiation team were Dorothy Hinson, Norma Hillmer, Dolores Weis, Roseann Koelker, Kate Buechele, Betty Wallace and Pauline Mersinger.

## Horoscope

Wednesday, Oct. 25

Today is a lucky day to travel for business, sign contracts and communicate with the public. Individual and group values merge as Mercury (mind) and Jupiter (expansion) harmoniously blend. Venus (affection) and Saturn (structure) harmonize stable relationships as fulfilling and productive now. Hearts bond in the morning. The moon (feelings), Venus and Saturn weave sensuous melody for love's intimate dance.

**ARIES** (March 21-April 19). You're a mental wonder child, ablaze with daring ideas. Fans flock to you. To win an admirer's loyalty, go the extra distance to complete a project — any midcourse lag on your part triggers doubt about your ability to lead.

**TAURUS** (April 20-May 20). Luck comes through your job or daily routines. Your dutiful attitude brings unexpected rewards. An afternoon dialogue with your significant other reveals something fascinating about your personal history. Friendships take root.

**GEMINI** (May 21-June 21). Words are your tools — express yourself. Your talents shine in academic settings and social-development groups. A discussion you inspire is beneficial for the community at large. Your employer trusts you.

**CANCER** (June 22-July 22). This week, you strike a happy balance in home, family and career affairs. Reaffirm key commitments. Your willingness to accept responsibility inspires others near you to emulate your ways.

**LEO** (July 23-Aug. 22). Party hounds unite! Ecuberant job mates — even clients — join your frolicsome parade. Business comes first in the morning. By noon, the evening's social plans start to form.

**TODAY'S BIRTHDAY** (Oct. 25). You're the great communicator in '95. Your silver-tongued sorcery gets you anything you desire. Caution: Be sure you truly want what you ask for — it could become yours. Find the real you.

**VIRGO** (Aug. 23-Sept. 22). You're the cornerstone of your health and home. Your family commends you for your earthy good sense. High gains come through domestic investments. Romance perks in a familiar locale.

**LIBRA** (Sept. 23-Oct. 23). You're positively brilliant — pals gather to hear your latest brainstorm and discuss ideas. The social scene bubbles with flirtations and glittering talk.

**SCORPIO** (Oct. 24-Nov. 21). Your secret poetic side emerges — maybe for the first time. Plunge into art, music and private reveries.

**SAGITTARIUS** (Nov. 22-Dec. 21). Team players: Lucky developments come in sports, civic projects or group assignments in school. Embrace a leadership role — you're poised to take charge. A VIP is on your side.

**CAPRICORN** (Dec. 22-Jan. 19). Take command of your career — you're set to fly. Small-business operators: You're ultra-resourceful. Start a venture on a shoestring, and make it pay. Domestic relations are depend able.

**AQUARIUS** (Jan. 20-Feb. 18). Your good fortune multiplies with help from friends. Let pals in on your latest brainstorm — team play is profitable for all. You're fired up for a mental challenge: Stimulating companions pique your interest in foreign affairs.

**PISCES** (Feb. 19-March 20). A windfall plumps your pocket book — you gain power for investment goals. A government or bank loan or your partner's resources add fuel and keep you going strong. Tonight's romantic escapade is blissful.

## Actors won't want 'Mallrats' on any resume

How can a reviewer write about a movie that makes "Dumb and Dumber" seem like a Merchant-Ivory production? When even the title could be a turnoff for potential ticket buyers? It's called "Mallrats."

One could praise the scenery. But almost all the action takes place in what is supposed to be a New Jersey mall (it's actually the Eden Prairie Mall in Minneapolis). And malls are among the most overworked and unexciting of film locales.

How about the photography? Trouble is, it seldom rises above

the level of a student film.

The acting? The trained actors will probably survive "Mallrats," but they will no doubt strike it from their resumes.

The writing and directing of Kevin Smith is a puzzle. He drew plaudits for his first film, "Clerks," about two workers in a New Jersey convenience store. But he overreaches with "Mallrats," many of the jokes misfiring and the running gags continuing pointlessly.

## Bethesda Baptist will have revival

The Rev. Luther Abbott, pastor of Bethesda Baptist Church, 3035 Namoki Drive in Granite City, has announced that the church will be in revival Oct. 26-27 at 7 p.m. each day. The Rev. Leon Harvey from McDougal, Ark., will be the evangelist.

"Harvey is no stranger to this area and Bethesda, as he has held two previous revivals at our church," said Abbott. "We invite the pub-

lic to be with us for this event. A nursery will be provided."

Special music will be presented nightly, according to the music director, Wayne Shockley.

The following Sunday, Oct. 29, there will be a "round-up" day at the church in the Sunday school department, said Peggy Hass, director of the Sunday school.

(Continued from Page 108)  
That said, it must be admitted  
that the movie offers a kind of  
buoyant anarchy and a few  
sight gags that are irresistibly  
hilarious.  
"Mallrats" is basically plot-  
less, but it has to do with a  
pair of mall idlers who have  
been jilted by their girlfriends.  
Brodie (Jason Lee) is the ring-  
leader of the plot to win back  
the women, T.S. (Jeremy Lon-  
don) is the reluctant follower.  
Renee (Shannon Doherty), a  
worldclass shopper, resists

Brodie's entreaties — until a  
tryst in an elevator. Brandi  
(Claire Forlan) gives T.S. the  
cold shoulder. Helping the  
male cause are Silent Bob  
(director Smith) and Jay  
(Jason Mewes), both of them  
expert at dirty tricks.

### Medicine Chest

America's Pharmaceutical Research Cos. has published the first in a series of brochures called 'HealthMatters.' The initial brochure is 'What You Need to Know About Heart Attacks.' For a copy, write to: PhRMA, 1100 15th St., N.W., Box H, Washington, D.C. 20005, or call toll-free (800) 862-4110.

### Fresh Picks

Seek a new slaw or jazz up a favorite mild one. There should be enough dressing on slaw to cover ingredients, not urge them to swim, so keep a small head of cabbage on hand for chopping extra every time a deli purchase is made. Add ethnic ingredients, like shredded jicama and cilantro, basil and fennel, crushed pineapple and a spoonful of chopped nuts or a little chopped ginger.

### Big Fat Tip

Pack flavor bang for the teaspoon or tablespoon of oil used when stir-frying in a nonstick pan. Flavored oils, available on supermarket shelves, provide diversity without always adding multiple seasonings to a spicy rack. Oils available include hot and spicy, roasted garlic, classic herb and lemon butter. A few drops can help flavor marinades, too.

### Future Shop

A beverage trend predicts continued success for apple growers. Apple cider is considered a fruity flavor of today and tomorrow. Found in varying degrees of sweetness, it is carbonated or still, alcoholic or not. It can enhance flavors that need or already have fruity emphasis. Replace some of the water in sauces with it. In France, calvados - a brandy produced from special cider apples around Normandy - already has high respect. French law protects 48 varieties of cider apples, according to distinct characteristics: sweet, bittersweet, bitter or acidic.

## BOO-WITCHING FUN

By Janice Denham  
Staff writer

The time has come for all good little Power Rangers and Hiawathas, angels and demons to don their masks.

No matter what the year's favorite costume is, treats that are ghoulish, bewitching, creepy and squiggly still take the carved-up cake.

Party fare can be foolishly fun with a few ghastly games, a spooky movie and spunky spiders on the side.

Little Halloweeners will enjoy decorating their own mini pumpkins, squash or gourds with colored markers, construction paper, pinecones, nuts, seeds and plenty of tacky glue.

If showing movies, line the room with night lights. Of course, the old scary-story routine lets guests have hair-raising fun, particularly if they are the right age to be blindfolded and pass around props of cold spaghetti "innards," pimento-stuffed olive "eyes" and fruit-flavored gelatin "brains." Serve orange punch floated with gummy worms.

The gingerbread house idea can have an autumn twist. Construct an edible haunted house centerpiece with pretzel rods, graham crackers, ready-made chocolate frosting as "glue," and decorate with melted marshmallows, Halloween candies and gummy worms.

## POPCORN CARAMEL APPLES

In large bowl, combine 1-1/2 quarts popped popcorn, 2 cups apple-cinnamon flavored rice cereal and 1/2 cup chopped dried apple.

In medium saucepan over low heat, heat 1 package (14 ounces) caramels (about 48), 2 tablespoons water and 2 tablespoons butter or margarine, stirring frequently, until caramels are melted.

Pour melted caramel over popcorn mixture. Toss to coat well. Let cool about 5 minutes.

With slightly dampened hands, shape into 8 balls around wooden sticks. Place on lightly buttered waxed paper.

Microwave tip: In medium microwave-safe bowl, microwave 48 caramels, 2 tablespoons water and 2 tablespoons butter on high power 2-1/2 to 3 minutes until smooth, stirring every minute.

## Private Label Test Run

Individual packs of Best Choice seedless raisins from Price Chopper make delicious, handy and nutritious snacks.

## Raisins easy to pack for snack or lunch

When *Suburban Journal* staffers were in school, their mothers must have been inclined to give them nutritious snacks, because they were very willing to test Best Choice seedless raisins from Price Chopper.

Tasters expected and felt they received a certain level of performance from the raisins individually packed in 1½-ounce boxes.

"The raisins are very good, kind of small, but flavorful, moist and sweet," said one taster.

"The raisins are tasty," another added. "They have a good flavor, and are additionally delicious sweet/tart flavor."

At \$1.19 for the convenient six-pack at Price Chopper, they received compliments for the economy of the package, which can cost about 30

cents more in national brands. The moistness came under scrutiny. While they considered them very acceptable, most conceded when the individual packages are not necessary for brown-bagging, they prefer buying raisins in larger quantities so they can be closed better to conserve moistness longer.

One taster likes the "addiction" her children experience when they eat raisins as a snack.

"They are easy to eat," she said. "These are moist, not dry, with a nice raisin flavor. The quality is consistent with national brands. These would be good to pack in my son's lunch and for snacks on the go."

One of the men who tried them called them "flavorful, with an expected good texture."

## Journal cruise features food of Caribbean

The skies and waters, sights and sounds, foods and fun of the southern Caribbean will be the destination of *Suburban Journal's* food editor Janice Denham and Altair Travel for seven days, beginning March 16.

San Juan, Puerto Rico, will be the initial port of the itinerary for a French Cooking Cruise that includes St. Thomas, St. John, Guadeloupe and Grenada, as well as Aruba and Caracas, Venezuela.

The spices, the legends of pirates, the French cooking connections, the coconut palm trees — all will be a pleasure for sharing together on the Zenith, part of Celebrity Cruises.

More information about the spring cruise will be in next week's "Today's Food" section. For initial inquiries, call Altair, 919-3500 or toll-free (800) 844-5598.

## Boo

Continued from page 1C. Keeping fun in perspective need not overwhelm parents. It can take a whole party for children to make their own haunted houses, letting them spread frosting with plastic knives. A black or white sheet decorated with spooky or pumpkin cutouts provides a backdrop where costumed revelers can pose for pictures. An instant photograph can be tucked inside a guest's treat bag filled with stickers, a small toy and a Centipede Cupcake or a couple Spooky Spiders. Registered dietician Maggie Long, clinical nutrition manager at St. John's Mercy Medical Center, says parents simply should use common sense when dealing with the occasion.

Limiting treats can be tricky. Here are a few suggestions from Long:

• Let kids pick out a few favorites for Halloween night, then slowly ration each child's haul, saving some for special occasions.

# Skip pie, bake bread with pumpkin

With Halloween around the corner, many porches are adorned with jack-o'-lanterns and kitchens tables are decorated with bowls of the fresh pumpkin. Supermarket shelves announce the approaching holidays with cans of pumpkin everywhere.

Enjoy the season by cooking with pumpkin, but remember not every person enjoys its flavor in traditional pie.

Pumpkin's delicate flavor is delicious and far different prepared in a bread. Combining pumpkin with fragrant spices and crunchy nuts is a sure way to convert someone into becoming a pumpkin-lover.

Despite its name, quick bread is not quickly turned into bread when baked con-

## Heart-y Bites

# Mediterranean cooking takes better-fat route

By TERRI EDELSTEIN

My 20-something brother, Jake, has discovered the joy of cooking. He and his new wife, Ali, especially enjoy Mediterranean cuisine. Lured into the kitchen by a wedding-present cookbook, Jake playfully boasts Ali's Greek Salad wits in comparison to his shrimp and pasta dish.

Jake and Ali are not alone in their love of Mediterranean foods. The bold flavors of southern Spain, Italy, Greece and Morocco tempt palates everywhere — with good reasons. Scientists are finding people who eat this way have lower risk of heart disease and certain types of cancer.

Like the U.S. Food Pyramid, this eating style focuses on lots of fruit, vegetables, beans, pasta, rice and grains balanced with small portions of dairy products, lean meats, poultry and seafood.

Imagine two chicken dinners. A typical American plate might feature a grilled chicken breast, steak and buttered broccoli. In southern Italy, the plate holds spaghetti with a sauce of tomatoes, herbs and olive oil tossed with a few slivers of chicken for flavor. Add plenty of bread, plus salad or fruit, and the Mediterranean style of eating is at hand.

In these days of low-fat and nonfat everything, there is a feeling that eating any food with fat is bad. In spite of eating fairly high amounts of fat,

Mediterranean people still enjoy good health.

The difference is the type of fat eaten. Olive oil, nuts and avocados — monounsaturated fats — replace butter, margarine and other cooking fats more common in the U.S. Monounsaturated fats help reduce the "bad" LDL cholesterol while maintaining the "good" HDL cholesterol in one's blood, thereby improving total blood cholesterol and reducing risk for heart disease.

A moderate amount of wine is a controversial recommendation. Many studies suggest a daily glass of wine may result in greater longevity. The American Heart Association does not recommend wine because some people find drinking to be a health problem of its own.

I'm glad my "little" brother shares my enthusiasm for cooking. As a dietician who feels a twinge of pride when he prefers to cook and eat healthfully, Jake leaves me beaming with a dish like this on the menu.

Registered dietician Terri Edelstein is a member of the nutrition committee of the American Heart Association, St. Louis Chapter.

Laclede Gas Co. will host the last monthly "I Love Eating" session of the year from 10:30 to noon Wednesday, Nov. 15. Registered dietitian Cathy Crowe of the home service department will offer sin-free desserts that satisfy the over-

grown sweet tooth. For information or reservations for this free class, call 45-HEART or toll-free (800) 255-9919. Lunch brown-baggers are welcome.

Whatever special touches a cook adds to this recipe using the microwave oven and a convenience mix make this a wonderful treat for the season.

## Newsworthy events put Halloween in headlines

Halloween isn't just for little goblins anymore. Grown-up ghosts have discovered Oct. 31 is a great time to dress up and party as someone else, too. For a '90s-style event, forget the tired old witch's hats and vampire capes and inspire creative imaginations with a "Who's Who in the News" party.

Ask friends to come dressed as their favorite newsmaker of today and challenge them to be devilishly creative. Plan a few newsworthy activities that will let the front page wannabes shine.

With all this action, keep the food snackable, delicious and satisfying. Offer a choice of dips, one hot and one cold, made extra-flavorful with cheese.

Guests can dip into Snappy Cheese Dunk, a creamy combination of ricotta cheese, cream cheese, sun-dried tomatoes and basil.

For an encore, there is Chili Cheese Dip, a spicy two-cheese blend that makes news of its own. Tortilla chips for the dip and pretzels and colorful fresh vegetable bites for the dunk will keep everyone happily fed while they enjoy the games and other "late-breaking" activities.

For a sweet sidebar, bring out a platter of Bewitching Orange-Almond Cookies, which can be baked ahead and stored in the freezer until party time.

- 1 pkg. (3 oz.) cream cheese, softened
- 1/4 cup sun-dried tomatoes in oil, patted dry, chopped
- 1 clove garlic, minced
- 1 tsp. chopped fresh or 1 tsp. dried basil
- 1 tbsp. toasted pine nuts

Combine ricotta, cream cheese, tomato, garlic and basil. Mix well.

Cover. Refrigerate. Sprinkle with pine nuts just before serving. Serve with assorted cut-up vegetables, pretzels and snack crackers.

Makes 2 cups.

### CHILI CHEESE DIP

- 1 cup (4 oz.) shredded cheddar cheese
- 1 cup (4 oz.) shredded Monterey Jack cheese with jalapeno peppers
- 1 pkg. (3 oz.) cream cheese, softened
- 1 cup chunky salsa
- 1 tsp. chili powder
- 1/2 tsp. cumin
- Chopped fresh cilantro, if desired

In medium saucepan, combine cheddar, Monterey Jack and cream cheese, salsa, chili powder and cumin. Heat over low heat, stirring constantly, until cheese is melted and smooth.

Sprinkle with cilantro. Serve with tortilla chips. Makes 2 1/2 cups.

Microwave directions: In medium microwave-safe bowl, microwave all ingredients except cilantro on high 2 1/2 to 3 1/2 minutes, stirring every 60 seconds until cheese is melted and smooth.

- 1 tsp. chopped fresh leaf thyme
- 1 tsp. chopped fresh leaf rosemary or dill
- 1 juice orange, cut in wedges

Trim and peel carrots. If carrots are large, cut off 4 to 6 inches of narrow end, then cut wider end lengthwise in half. Small carrots can be left whole or cut crosswise in half.

### BEWITCHING ORANGE-ALMOND COOKIES

- 1/2 cup (1 stick) butter, softened
- 1 pkg. (3 oz.) cream cheese, softened
- 1/2 cup confectioner's sugar
- 1/4 tsp. grated orange peel
- 1 cup flour
- 1/2 cup finely ground almonds
- 1/4 cup semisweet chocolate chips

In large mixing bowl, cream butter and cream cheese until blended. Add sugar and orange peel. Beat until light and fluffy.

With electric mixer on low speed, gradually add flour and almonds. Mix well.

Wrap dough in plastic wrap. Chill 1 hour.

Preheat oven to 350°. Form dough into 1-inch balls. Place about 2 inches apart on cookie sheet.

Using bottom of drinking glass dipped in granulated sugar, flatten dough to 1/8-inch thickness.

Bake in preheated oven 17 to 19 minutes until edges are light golden brown.

Remove to wire rack. Cool completely.

Melt chocolate chips according to package directions. Dip tops of cookies and drizzle in thin lines across tops of cookies. Place on waxed paper until set.

Note: To make ahead and freeze, pack cooled cookies in airtight containers, separating layers with waxed paper. Thaw, covered, at room temperature. Drizzle with melted chocolate shortly before serving. Refrigerate 5 to 10 minutes.

Guests will report on the delicious snacks at this Halloween party.

## Wise Ways

MARY SCHROEPFER

## Pumpkin has more to do than sit around grinning

Cool, crisp days in the pumpkin patch bring out the creativity of gardeners and pumpkin lovers alike. Although pumpkin butter seems like a tasty new way to prepare pumpkin for gift-giving, creatively canned pumpkin products can be deadly if not preserved safely.

Apple and other fruit butters and fruit marmalades are acid products. Fruits' natural acidity keeps them safe from botulism, the most deadly form of food poisoning.

Apple butter is safe when canned according to U.S. Department of Agriculture directions by immersing closed jars in a boiling water canner 10 to 15 minutes immediately after filling and closing the jars. In contrast, pumpkin and other vegetables do not contain enough acid to be canned by the boiling water method. Low-acid foods like pumpkin must be pressure canned at 240°F., well above 212°.

There is more to the problem with pumpkin butter. Even when acidified with the addition of lemon juice or vinegar, it is a very dense product and may not be canned safely. Heat does not travel easily to the center of the jar in very dense products, even when processed at 240°.

Therefore, for safety, sweet spreads made from pumpkin should be frozen, not canned. Keep pumpkin butter and pumpkin marmalades refrigerated once

they are thawed. *Home economist Mary Schroepfer is nutrition specialist with University Extension (University of Missouri system) in Franklin County.*

3½ cups sugar  
1½ cups honey  
1 to 1½ tsp. cinnamon  
¼ tsp. allspice  
½ tsp. salt  
1 cup orange juice

Preheat oven to 325°. Wash pumpkin. Cut in halves or quarters. Remove seeds and membranes. Bake cut-side down in preheated oven about 1 hour until soft. Remove outer skin. Puree or press pulp through food

mill. In large pot over medium heat, bring to boil. Boil 10 to 20 minutes, stirring often, until thickened. When puree mounds slightly on spoon, measure volume.

For each 4 cups puree, add sugar, honey, cinnamon, allspice, salt and orange juice. Simmer, uncovered, until thick enough to spread. Ladle hot pumpkin butter into pint freezer containers, leaving ½-inch head space.

### JUICY PEARS IN CHOCOLATE SAUCE BY MICROWAVE

Core 4 fresh pears. Slice lengthwise ¼-inch thick.

In small microwave-safe bowl, combine 2 tablespoons cocoa, 2 tablespoons sugar and ½ cup low-fat chocolate milk. Microwave on high power 1 minute. Stir in 1 tablespoon frozen orange juice concentrate and ½ teaspoon vanilla. Heat 1 minute

longer. To serve, divide chocolate sauce between 4 dessert

plates. Arrange fanned pears on top. Makes 4 servings.

### FEELING FIT

By Mark Lymberopoulos

On-site fitness centers improve employee morale, as well as lower company health costs, says a New Jersey study. White collar workers seem to appreciate and use them most.

What happens when you give up red meat and take in more fiber? You probably need more minerals. If your knees hurt when bicycling (or after), check the seat height. Your leg should be almost fully extended on the downstroke, with only the ball of the foot on the pedal.

Olive oil is the all-time winner in the monounsaturated-fat sweepstakes, with a full 72 percent of the now-preferred monounsaturates. It also contains 14 percent saturated fats and 9 percent polyunsaturates.

Rule of thumb for comfortable tennis: 8 ounces water before you start, plus 1 ounce each time you change sides. For the get-in-shape exercises that keep you young, see the expert instructors at

## HOW TO...

**PLACE AN AD**  
There are four easy ways to place your ad.  
**BRING IT:** 1815 Delmar Ave., Granite City, IL 62040.  
**MAIL IT:** Send your ad to: Classified, Granite City Press-Record Journal, 1815 Delmar, Granite City, IL 62040.  
**PHONE IT:** Call 877-7700 or dial 876-2000. Phone lines are open from 8 a.m. to 5:00 p.m. Monday through Friday.  
**FAX IT:** Send your ad directly to our Classified Fax Center at (618) 876-4240. We'll call you back for confirmation.  
**MAIL IT:** Send your ad to: Classified, Granite City Press-Record Journal, 1815 Delmar, Granite City, IL 62040.

**PAY FOR AN AD**  
You will be billed immediately following last run day. You may pay in person, through the mail, or over the phone or fax. We accept cash, checks and credit cards (MC/Visa/Discover). When paying over the phone, please have your credit card ready. When faxing your ad, just include your credit card number. We'll call you back for confirmation. Please do not send cash through the mail. Some ads require prepayment.

**WRITE AN AD**  
Capture the reader's attention with larger headlines, bold type, and icons. Tell them up front what you're selling or seeking. Describe what is unique about your item, adding details such as color and condition. Make your ad harder to read and therefore less effective. Include your phone number and the price; it will increase your responses.

**CANCEL AN AD**  
Deadlines for ad cancellation are identical to deadlines for ad placement. You may cancel an ad in person or over the phone. To cancel an ad, phone 877-7700 or 876-2000.

## Scouts earn cycling merit badge

Marv Wiedemeyer led 11 Boy Scouts from Troop 13 to earn the cycling merit badge. To earn the badge, each scout needed to complete six separate 25-mile rides and one 50-mile ride, which had to be done in less than eight hours.

On Oct. 9, Wiedemeyer, Mike Fornachon, Rose Geroff, Bill Kutosky and Jeff Lux took Brad Becker, Brian Dittman, Bryan Fornachon, Matt George, Steve Geroff, David Hartwick, Robert Henry, William Kutosky and Geoffrey Lux on a scenic ride of 50 miles.

They left St. Elizabeth Church at 9 a.m. and rode to the Lock and Dam in Alton, where they had lunch. The group then rode across the Alton Bridge, came back across the bridge and followed the bike path to Pere Marquette Lodge at 3:30 p.m.

Milan Babic and Tom Layloff gave everyone a ride back to Granite City.

Shown are, from left, Marv Wiedemeyer, Robert Henry, Brad Becker, Chris Layloff, Patrick Mawzen, Bryan Fornachon, Matt George and Steve Geroff. Not pictured were Brian Dittman, David Hartwick, William Kutosky and Geoffrey Lux.
